# STRENGTH WITHOUT STRESS

Acimex stands for 40 years of experience in the technology of vacuum lifting and handling for heavy loads, we diversify and enlarge our range of vacuum devices to adapt to all fields of industry.

All our devices are certified and can run intensively even in a hostile environment.

We commit ourselves to every step of the process from the conception to the delivery...

...and on our range quality:

HYDRAULIC GRAB - STORAGE VACUUM LIFTER - DEMOULDEUR/TURNER - 90° TURNING VACUUM LIFTER - OFFLINE/DEMOULDING VACUUM LIFTER - MECHANICAL GRAB - 180° HYDRAULIC /ELECTRIC TURNING LIFTER

## PIPELINES

Handling a long tube in a harbour or on pipelines building site is easy thanks to our vacuum handling devices fitted with rubber suction pads. They allow a careful handling without any surface damages.

Vacuum pipe lifter with coupling system - SWL: 1.7T - DLE Company

Vacuum pipe lifter for Liebherr excavator

Vacuum pipe lifter for JIB Truck

## CONCRETE

Our vacuum lifting devices are designed to fit to concrete surfaces. Our success story: our famous rubber sealing and our solenoid valves which became a standard.

Off line / Demoulding vacuum lifter for concrete segment with safety hydraulic arm

Segment erector for TBM

Demoulding, tilting for wall and road segments

Off line / Vacuum lifter for concrete segment
